FOR DOMESTIC AND INTERNATIONAL USE

HELLO
MY NAME IS

DAVIE G

This book is the cumulation of my trades and selected personal work from a period spanning 5 years between 2019 - 2024. Though I have plans and materials for several more volumes, this volume is incredibly special to me for many reasons.

This book is a nostalgia bomb. It's a love letter to something I consider an incredibly important art form, it's a record of the community I love and my crew.

The reason I actually scanned this book is because at the end of March 2024, my mentor and best friend Pugs passed away.

When he died, all of our inside jokes died with him.

Pugs had retired from stickers and started collages in the two years before he passed so his loss was punctuated by the realization that very few new artists seemed to know who he was. This was kind of shocking to me and I realized that not only did very few new artists know him, there were tons of artists who have gone inactive that had a huge impact on the sticker community but were at risk of being forgotten.

Though some of these artists are gone or obscure, I hope this helps their labor of self expression survive and be appreciated by future sticker artists and appreciated by people interested in the art form.

These stickers are drawn and designed as though they would have been slapped up in the world somewhere for public view.

These stickers are presented exactly this way without comment or annotation as intended. The only messaging or identification is what the artist themselves intended. This art is for perusal not use and belongs to its artists.

I hope that you experience this as if you're my friend and you've picked this book up from my coffee table and are flipping through it.

Malice 6/1, 2024, OG5
